Mobile App Developer with expertise in building robust applications using Flutter, Node.js, and MongoDB. Experienced in UI/UX design, API integration, real-time features, and scalable backend development across various domains.

EXPERIENCE

VativeApps - Junior Flutter Developer

May 2025 – present

- Developed social media, live streaming, and AI-driven TikTok-style apps with Flutter, integrating Node.js APIs, resolving complex Flutter version issues, and improving debugging efficiency for high-performance, stable builds.

Key Skills: **Flutter, Node.js, State Management (Provider, BLoC, GetX), Real-Time Features, Debugging, Version Management.**

Fission Tech – Flutter Developer

October 2024 – present

- At Fission Tech, I developed Yaa Foods, a food and grocery delivery app, with Firebase push notifications, MVVM architecture and a NestJS/Node.js backend for robust API handling and real-time data sync.

Key Skills: **Flutter, Firebase, MVVM, NestJS, Node.js, API Handling, Real-Time Data Sync.**

Fission Tech – Flutter Developer Intern

July 2024 – September 2024

- During my internship, I contributed to mobile app development, enhancing features and performance. I gained hands-on experience in state management, API integration, and UI/UX development. This role provided valuable real-world exposure, boosted my problem-solving and teamwork skills, and led to a job offer. **ViewCertificate** 🔗

CodeSoft – Flutter Developer Intern

November 2023 – December 2023

- Internship at CodeSoft IT Services and IT consulting company 1 Month Remote Android Application Development. **ViewCertificate** 🔗

CERTIFICATION AND ACADAMIC AWARDS

Flutter Mobile App Development

June 2020

Course by Udemy-Maximilian Schwarzmülle

ViewCerficate 🔗

ZAB LEARN-FEST SPEED CODE COMPETITION

April 2023

Runner Up in Zab Learn-Fest Speed Coding Competition

- In 3rd Academic year in SZABIST, Runner-Up in Speed Code competition during Zab Learn-Fest 2023.

SKILLS

SOFTWARE

Flutter, SQL Server, NetBeans, Figma, Blender, Cisco Packet Tracer, Git Hub

PROGRAMMING LANGUAGES

Dart, Java, Node JS, Python

DEVELOPMENT SKILLS:

Version Control, Logic Building, Master new Languages effortlessly, 3D Modeling, Networking

EDUCATION

Bachelor in Computer Science - SZABIST Karachi

August 2021 – June 2025

CGPA 3.75

Intermediate - Pre Engineering - Govt. Degree College.

August 2019 – August 2020

Grade B | 2020

PROJECTS

HRFLEX APP- SAAS based HRMS

- HRFlex is a SaaS HRMS app that streamlines employee management, attendance, leaves, and tasks with real-time location and secure authentication. It provides a complete HR solution with integrated subscription management. I completed FYP 1 and am actively developing it.

Key Skills: **Flutter, Node.js, MongoDB, REST APIs, Google Auth, Maps, RevenueCat, MVVM, UI/UX, Payment Integration.**

Yaa Foods - Delivery Food App

- Yaa Foods is a dual-platform food delivery app with **Customer** and **Driver apps**. Customers can browse menus, order food, and track deliveries via Google Maps, while drivers manage orders, update status, and navigate seamlessly. It features real-time notifications (FCM), optimized API communication using Dio and NestJS, and a localization service supporting Arabic.

Key Skills: **Flutter, Node.js, MongoDB, Google Maps API, Firebase Cloud Messaging (FCM), Dio, UI/UX, Real-Time Order & Delivery Tracking.**

Telegrant - Social Media App

- A Robust Short video and Streaming app full of animation with seamless UI, with market place, inapp purchase and many other features.

Key Skills: **Flutter, Hive, Firebase, Agora, Node js, Advance debugging.**
